Inspire, Innovate, Protect:
One World, One Solution

About us

One World Intellectual Property is one of the largest leading companies distinguished by extensive experience at the regional and international levels in the field of registering and protecting intellectual property rights. It owns more than 20 specialized offices across the Middle East and North Africa region and includes a team of experts specialized in the field of protecting the IP rights who achieved distinct success for over 50 years, and provides its services around the world through network of associates.

Our group provides its distinguished services in the field of registering trademarks, patents, utility models, industrial designs and drawings, copyrights, plant varieties, domain names, geographical indications, franchises and license. Our clients portfolio includes global and local institutions and companies from various sectors.

We provide legal advice to our clients in the field of intellectual property including preparing, submitting and following up appeals, oppositions and proceedings against violations and infringements of the IP rights before the competent courts and relevant government agencies, in addition to negotiation, mediation and dispute settlement through legal consultants specialized in the field of the IP rights.

One World Intellectual Property also provides services to safeguard the IP rights at custom ports, in addition to providing investigation services in local markets for the counterfeit products in order to protect the consumer from the counterfeited products and from misleading data regarding the source of the products.

Our group also provides the service of managing its clients' intellectual property rights portfolios through the use of advanced programs.

Mission

- Empowering Solutions.
